

Three Steps to CMMC 2.0 Implementation

Are you or will you be bidding on a Department of Defense (DOD) contract in the near term? Minimize cyber risk, gain a competitive advantage and achieve compliance with the CMMC 2.0 program.

As a Certified Third-Party Assessor Organization (C3PAO), ABS QE can provide gap assessments, readiness reviews, training services, assistance with the Joint Surveillance Assistance Program (JSAP) and, upon final rulemaking, CMMC 2.0 certification.

*DIBCAC High certification will update to a three-year CMMC Level 2 certification once pending rulemaking is complete.
